Building for our Future

Nearly 80 years ago, our church was built with a heart to reach the local community with the message and love of Christ. This remains true today but the needs of both our church and community have changed enormously.

To meet these challenges the church has engaged in much prayer and consultation. Out of this process our building development project has emerged which aims to accommodate our current activities and to help us to more effectively serve the community.

Through this project, our ministries and each of us (the church), we seek to be a source of new life and a place of welcome to all.

We desire to continue to contribute to the spiritual and social well-being of our community through the exciting new development of our building.

A Summary of the Church Vision leading to the Church Membership agreement to pursue the building development project.
